Lifescape Physician is an Connected EHR/PM built to run the clinical workflows that extend beyond your practice, enabling care coordination across a connected community.

Leverage MEDfx's market-leading connectivity platform to manage your practice. Connect externally to any care provider, creating a longitudinal patient record across the continuum of care. Automate workflows among your regular business entities to coordinate patients' transitions in care. Simplify daily workflow and clinical decisions through intuitive notifications and alerts. Streamline communication providers and patients through messaging and referral- management tools. Front-office staff stay connected internally and externally, driving more efficient administration. Integrate claims management to connect and streamline office billing management and workflows.

The EHR Rated #1 for Usability
We're rated the best! Sure our

product is amazingly affordable, user-friendly, and easy to learn, but what is most amazing is that despite costing so much less than other EHRs, in study after study the Connected EHR/PM is consistently rated as being the best.

"[Lifescape Physician] allowed me to individualize templates, plans, reminders, and more, to keep everything running smoothly and customized to MY needs."

— Shannon C. Heinrich, DO
