## PRACTICE MANAGEMENT

*MEDfx: A browser-based practice management solution that is easy to use, feature rich, and affordable*

### Integrated Management: Organized, Flexible, Secure

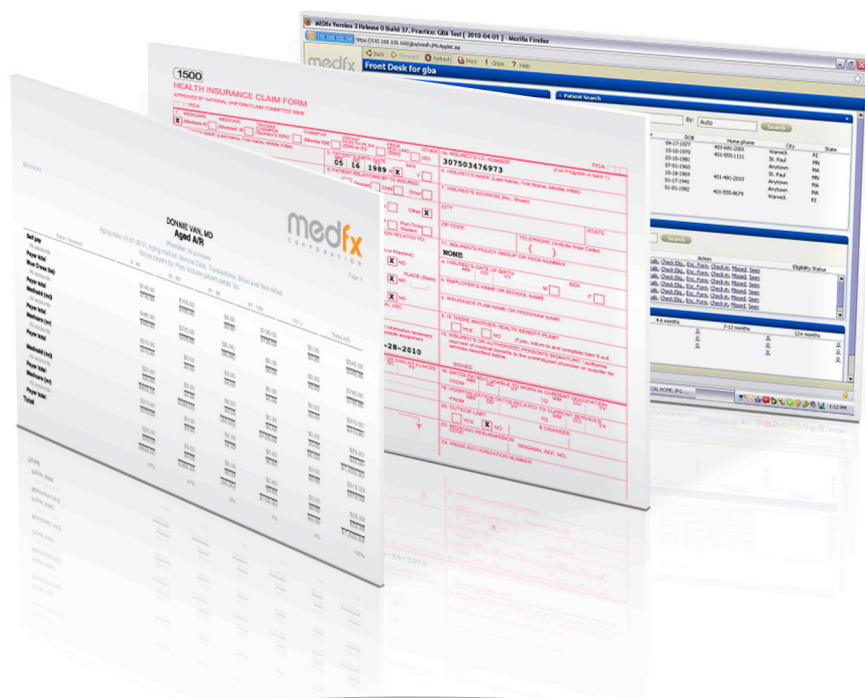

MEDfx PM is a completely integrated, web-based clinical office and financial management solution that is scalable for practices of all sizes and specialties. The PM portlet promotes the efficient management of day-to-day office workflow, from the Front Desk to the Billing Office, including fully automated insurance eligibility checking and electronic claims submission. You can also manage and track patient compliance by establishing Treatment Plan schedules, recall appointments and reminder call schedules. PM can be connected to office EHR to further promote quality and safety of patient care.

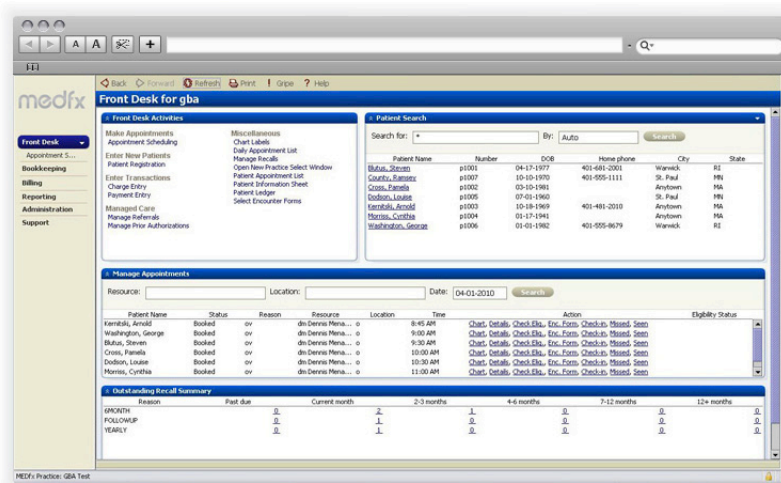

### Simplify with MEDfx

An integrated solution with all the tools necessary to manage a cost-effective, efficient, and healthy practice — no matter what size or specialty.

## Customer Testimonials

“The conversion to MEDfx was so easy. Eight days after going live, we were getting checks [from insurance companies].”

Michael A. Gilchrist, M.D.  
Michael A. Gilchrist, M.D., Pediatrics, Chelmsford, MA

“Our big concern was the migration of our immunizations and it was without a glitch. The overall satisfaction with MEDfx is very high and must be attributed to the quality [of the product] and also the training and support we received during the transition from PMS to MEDfx.”

Carol Gilchrist, R.N., C.M.M., Practice Manager  
Michael A. Gilchrist, M.D., Pediatrics, Chelmsford, MA

“MEDfx has brought my practice into the 21st century. MEDfx is performing very well for my practice. I was

extremely pleased and pleasantly surprised that the transition from my legacy system to MEDfx went so smoothly. The concept of doctors only wanting to practice medicine while being ignorant of the business side of their practice is going by the wayside. Doctors now see that they can practice the medicine they want to practice, but do it better with technology’s help.”

William R. Helfrich, Jr., M.D., President, CEO, and Founder  
South Shore Urology, Inc., South Weymouth, MA

“MEDfx Corporation fits the product to the client’s needs; does not demand that the client fit to the product. MEDfx Corporation listened to us and followed through with support.”

Gail Langley, Business Manager  
Belmont Medical Associates, Inc., Cambridge, MA
